

**SUSTAINABILITY ADVISORY COMMITTEE
MEETING MINUTES - June 15, 2022**

1. Call to order

Meeting called to order at 6:33 p.m.

2. Roll call

Present: Mark Aulman, Allison Martin, Rolf Frankenbach, Adelita Serena, Robert Ullrey,

Absent: Raul Tadle, Catalina Munoz, Liza Grandia, Sara Schremmer

Staff Present: Rosie Ledesma, Sayetsi Sanchez

Guests Present: Robin Datel

3. Public Comment

There was no public comment.

4. Member Reports (Information Item)

Allison notified the committee that she will be stepping down from her role after July's committee meeting. Allison also shared that she is currently researching the Valley Clean Energy UltraGreen program and working on identifying areas, where council may have concerns. Allison will continue working on this task with Raul Tadle and will attempt to have a report for the committee by the July meeting.

Adelita mentioned that as a member of the Yolo County Climate Action Commission, she recommended Woodland to be considered for MíoCar's (<https://miocar.org/>) next site, for their zero emission vehicle car sharing services. MíoCar will be presenting their program during the Yolo County Climate Action Commission meeting in July for consideration. If Woodland is chosen, a site assessment will be conducted to see how a car sharing service will work in the area.

5. Staff Reports (Information Item)

Rosie mentioned the committee will go on recess in August and potentially the following months, depending on staffing availability to support the committee.

Rosie provided an update on the progress towards meeting SB 1383 requirements. Woodland is currently behind schedule on meeting AB 1826 requirements and CalRecycle has placed Woodland on a compliance plan. Waste Management will have phase two roll out the following week for businesses to have organics, unless they have an exemption or waiver. Environmental Services is continuing their outreach efforts, such as posting on the

billboard on I-5. Residents will also receive information regarding resources, services available, and opportunities to get food scrap pails in the mail.

Rosie commented that SB 1383 also requires audits to be done. Woodland has not done an audit at this time. Yolo County has completed an audit and shared their results. The State of California will need to do a characterization study soon, as the last one was performed in 2014.

Committee members discussed reduced staffing levels for Environmental Services. Mark has requested for his email inquiry to be included in the minutes. See Appendix A.

Sayetsi provided an update on the virtual water-wise landscape tour. The virtual event on *WaterWiseWoodland.Weebly.com* received 794 unique visits. Sayetsi also mentioned, the City's AquaHawk program has been increasing in numbers and currently has 6,637 registered users.

6. Approve April 27, 2022, Meeting Minutes (Action Item)

Allison requested an edit under Item #12 to be made. The abbreviated word ARP should be spelled out as, "American Rescue Plan".

On a motion by Mark Aulman, seconded by Allison Martin, and carried on a 5-0 vote, with 4 absences, committee members approved April's meeting minutes, as corrected.

Ayes: Aulman, Martin, Frankenbach, Serena, and Ullrey.

Noes: None.

Abstain: None.

Absent: Grandia, Schremmer, Tadle, and Munoz.

7. Climate-Safe CA Campaign Update (Information Item/Action Item)

The committee discussed the presentation on the Climate-Safe CA Campaign that will be presented to council on June 21, 2022, and potential slides that should be included.

Community Member, Robin Datel, from the Unitarian Church of Davis, asked about the process for council, if they were to approve this item. Rosie explained that the June 21st meeting will be a presentation only. If council wants to consider a resolution, then it would need to be added as an action item on the agenda for the next meeting.

8. Community Input Event (Information Item)

Allison shared with the committee the importance of having people register for the event and discussed other means of promoting the event. The following outreach efforts have been done:

- Press release
- Advertisement on the city website
- Posted on the City event calendar
- Shared on EnviroWoodland social media pages with paid advertisement

Allison will continue conducting outreach and is planning to contact businesses, as well.

9. Work Group Updates (Information Item)

There were no work group updates.

10. Discuss Long-Range Calendar (Information/Action Item)

There were no long-range calendar updates.

11. Adjourn

Meeting adjourned at 7:51pm.

Appendix A

6/15/22, 4:54 PM

Some updates for out SAC meeting June 15

Hi Catalina,

I am hoping we can get a couple of updates at our upcoming meeting, specifically on these items:

- The \$400K that, as we were told, was going to be appropriated by the Council for sustainability-related projects.
- Some additional clarity required on pending Zoning Ordinance changes.
- How much liaison is occurring between the City of Woodland and County of Yolo on sustainability-related issues? There is a GHG inventory coming up at the County level. Our Climate Action Plan calls for something similar. How is Woodland preparing for that?
- Does the City of Woodland need a Sustainability Manager at this time?
- Is there any chance the SAC will get to participate in a working session and idea exchange with the City Council? I have been asking for this for months, and it has been promised by the City Manager, but no date has been established.

I have already had a Woodland resident ask me whether the Community Input meeting on July 9th can be set up to allow participation from home, i.e. in a hybrid format. The Woodland School District has done this for classroom instruction. Can the City borrow the equipment for one afternoon?

That's it from here,

Mark
