SUSTAINABILITY PROJECTS		
Project Name	Description	Status
UC Berkeley Climate Action Data Committee	Group of academics, consultants, and researchers to solve GHG data issues and streamline process for local GHG inventories; state funded.	City is a member and staff are actively attending monthly meetings. Staff reviewed draft tool and provided feedback at the Committee's most recent meeting. Staff provided Woodland's GHG inventories for comparison and are awaiting results. Received an update from the project team on July 7: "they've run into many obstacles with this task, but have made good progress. Key elements still in progress include: • Obtaining historical data pre-2020 for SCE/SCG and any data from SDG&E; missing some munis • Refining methodology for gap filling in Investor-Owned Utility (IOU) data gaps (a rudimentary method has been developed, but working on improving) • Unincorporated County data is still proving tricky • Refining back-casting methodology for Replica 2023 VMT data using a combination of EMFAC and AADT"
KUIC "Hometown Green"	Radio ads to encourage listeners to incorporate sustainability practices into their everyday life	City staff recently re-upped our agreement for FY 2026. Topics will include oil disposal and recycling, water waste, and battery disposal.
New City / WM Agreement	The City of Woodland extended its waste-hauling agreement with WM, effective September 1, 2025	Updated service includes "At Your Door" a la carte pickup for household hazardous waste as well as expanded customer service. New agreement also allows City the flexibility to recruit an additional Conservation Coordinator position to better implement the requirements of SB 1383
Regional Resilience Grant Program	County-wide effort to create a Yolo Regional Resilience Collaborative that will position us for better collaboration on regional projects and additional funding; state funded through Governor's Office of Planning & Research (OPR).	Many SAC members attended first YRRC community workshop on July 24 Next steps include formalizing a governance structure and selecting regional priority efforts/projects
Zero Emission Vehicle (ZEV) Action Team	County-wide effort to perform an analysis fo the county's ZEV infrastructure needs, positioning us better for future grant applications and investments; each member will work with selected consultant on a municipal fleet transition plan.	In collaboration with all members, including the City of Woodland, the consultant is finalizing a needs assessment document and presentation.
City-County Climate Working Group	Regional climate and sustainability collaboration: Local city and county staff in Yolo and Sacramento counties	City is a member and staff are actively attending meetings. Amanda Portier serves on the steering committee to help facilitate meetings. Most recently, members heard reports from CivicSpark fellows across the region about their great work over the past year(s)
Capital Regional Climate Resilience Collaborative (CRCRC)	Sacramento region-wide (six county) group to share best practices and coordinate efforts.	Spencer Bowen on the CRCRC Steering Committee for four years; CRCRC activities helped in efforts such as the above OPR grant application and Federal EPA CPRG program. Currently, CRC is planning a workshop at the October 1 "Livability Summit" presented by Valley Vision
ZEV support	Installation of ZEV infrastructure and procurement of vehicles	All downtown chargers updated to new technology (Charge Point) Fleet services complying with State's "Green Fleets" rules and participating in ZEV Action Team (see above) New parking lot project at the Community Center will include EVCS and wiring for additional expansion; project is on track for completion in the coming months
Woodland Bike Loop	Identify and promote a citywide bike loop to promote active transportation	City approved and identified loop location in March 2024 City received YSAQMD funding for signage and promotion Staff refining pole locations and signage with Transportation and Signs & Marketing team. First "test sign" is up on First Street near Corner Drug.
Woodland Bike Locker Project	Install bike lockers in key areas throughout the City.	Three bike lockers installed on the west side of City Hall. Currently in a pilot program to test out reservation software.
Woodland Geoportal	The Woodland GeoPortal page contains GIS data layers that are available for download, the interactive map library and various mapping applications that were built on GIS technology.	Maps include: Woodland Bicycle Map, City of Woodland Trees, Woodland Conservation Efforts, Woodland Parks, & more.
New CA Water Restrictions	Making Conservation a California Way of Life is a new regulatory framework proposed by State Water Board staff that establishes individualized efficiency goals for each Urban Retail Water Supplier. In addition, "Non-Functional Turf" bans are top of mind and closely monitored by our Water Conservation Coordinator.	Staff continues to review these new regulations. Conservation Coordinator position collaborating more closely with Public Works and Utility Engineering. Water Conservation Coordinator position attending regional workshops and colloquiums to share best practices and strategies
Woodland Transfer Point Relocation	The Yolo Transportation District (Yolo TD) and City are studying options for a new bus transfer point in Downtown Woodland. The new transit center would improve connectivity between Downtown and key regional destinations, and would replace the outdated and unsafe transit center in the County Fair Mall.	Recommendation for a new downtown transfer point in front of the "New" Courthouse on Main Street will be presented to Woodland City Council on Tuesday, September 16 as part of YoloTD's short-term transit plan
Greenhouse Gas (GHG) Emissions Inventory Update	Tool used to track emissions throughout the City.	City staff faced challenges due to 15/15 privacy rule, the addition of Valley Clean Energy (VCE), and VCE's power content label. In the meantime, staff also actively participates in UC Berkeley Climate Action Data Committee for statewide solutions (see above).
